PULLMAN JAKARTA INDONESIA
THAMRIN CBD HOTEL

DFI TESTIMONIALS

Tag Aviator Hotel case study results:

- Enables housekeeping staff to **turn rooms faster**, thus reducing labor costs
- Reduced hotel cleaning time per room by **seven minutes**
- In a hotel with 100 rooms that equates to 700 minutes per day in labor savings! **“Tag Aviator Hotel has been very impressed with the results they are receiving...”**

“In a 5 year period, the Tune Hotel Pasar Baru alone spends about 45,000,000 Rp in the chemical cleaner alone. This cost will disappear immediately after switching to DFI... Thus, in 5 years, you will save about 20,000,000 Rp just in the harsh chemical cleaners. Again, saving in labor rate have not been accounted for.”

–Hotel Maintenance Manager, Tune Hotel Pasar Baru
